## DIRECT RESULTS & PROGRAM WINS

---

***“I was directly connected with 2 interested students as a result of this campaign who will likely enroll within the next year when it aligns with their program timing.”***

*-Rosalind Franklin University*

***“We did see an increase in our last two open houses, and I think it is safe to say that the All Access social media marketing definitely played a role.”***

*-Be Well Solutions Dietetic Internship*

***“Working with All Access Dietetics on an email and social media campaign was very beneficial for our program. Their team has a unique understanding of our target market and was able to help us most efficiently utilize our small marketing budget through targeted outreach. Because of their understanding of the complex pathways to the RDN credential, we were able to create a successful marketing plan in a short timeframe and were able to reach and connect with many potential students outside of our normal channels. Our Department looks forward to working with them again!”***

*-University of Wisconsin-Madison*
